

# Experience Dreamlike Time - with LICHTMOND 3 "Days of Eternity"

With special guests:

**MIDGE URE (Ultravox, Band Aid)**

**I MUVRINI**

**SKY DU MONT**

**HARDY KRUEGER Jr.**

*Tick, tock, tick, tock - time is ubiquitous and simultaneously the most mysterious phenomenon in the world. Both endless and precious, connecting and separating, it flows in permanent haste, moving to its own steady rhythm ...*

## Experience Dreamlike Time

With LICHTMOND 3 "Days of Eternity" gold and platinum winning sound architects Giorgio and Martin Koppehele continue their artistic journey by setting another audiovisual milestone. Perfect sound and a fabulous, song-based story merge in the LICHTMOND 3 experience that takes you on a fantastic journey to the pristine world of the planet "Chronos" - the universal giver of time - where time disappears, time goes and time is born.

## Enjoy the Aesthetics of Sound and Image

Sometimes hypnotic, sometimes spherical, sounds float over massive rock guitars or slow-motion beats. A magic triangle of electronics, ethno and rock songs, big voices and poignant poetry shape the pure originality of LICHTMOND. While audio-magic fascinates anew, perfectly composed visual worlds put the viewer under their spell more than ever. LICHTMOND with its spectacle of fantastic images presents a complete story combined with a perfect dramatic arc.

## Discover Pure High-Tech

In addition to the intoxicating sound mixtures in 5.1 and 7.1 surround sound, for the first time the audio pioneers from Germany offer LICHTMOND in a special Auro-3D 9.1 sound mix. The Pure Audio Blu-ray is surprising in that it delivers the various sound formats from LICHTMOND and the playback options of the Pure Audio Blu-ray. For sound lovers a highlight that leaves no wish unfulfilled.

The 3D animation technics from Spanish IMAGO-D Studios (Diego M. Bonati, Javier Sáenz-Messia) offers more color intensity, has a higher resolution, is more expressive and brilliant. And, is already equipped for all requirements of the new 4K UHD technology
